CORROSION BLOCK®

Using Corrosion Block in your preventative maintenance program will Improve Reliability, Reduce Repair and Labour Costs.

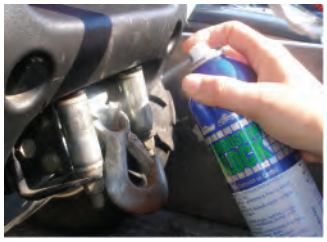

KILLS CORROSION ON CONTACT

Powersports • ATV

Being "Pro Active" about corrosion control is important to protect ATV's year round...

Lubricate Winch Cables

40kV Dielectric Kills Battery Post Corrosion

- **Corrosion Block** is a clean fluid that actively protects metal and electronics using advanced polar bonding chemistry.
- Synthetic additives in **Corrosion Block** completely penetrate corrosion cells, replacing the moisture which is then allowed to evaporate.
- **Corrosion Block's** hydrophobic film remains to further protect the metal acting like an **"OFF SWITCH"** for corrosion.
- Protects metal components down to -70°F
- **Corrosion Block** is Safe; it is nontoxic, nonflammable, and nonhazardous, with a nonflammable aerosol propellant.
